Cello Duet

Danzas Latinoamericanas

dedicated to Carlos Prieto

3. Atardecer Tapatío

by José L. Elizondo

PERFORMANCE NOTES: Even though this piece is notated using 6/8 meter, the music actually alternates between 6/8 and 3/4 meter throughout the piece, as is characteristic in this type of Mexican dance. Performers are kindly encouraged to be aware of those meter changes that add an element of playfulness to the piece. Whenever possible, the beams of the note groups reflect the "perceived" meter. The tempo should be the same, steady and regular, throughout the entire piece with the only exception of the very last couple of measures, where a "ritardando" is indicated. It is very important for this type of dance to be very light, joyful and worry-free.

Festive, spirited and pleasantly danceable ♩. = 96-106

Steady tempo throughout the entire piece (and no rubato)

The tempo of the entire piece is steady. The only section of the piece where the tempo should be slowed down is the very last 2 measures, to help the ending more convincing, particularly after all the accumulated energy in the last 4 measures.
